Mr.Jin 原创·考研复试自我介绍攻略

《MrJin 复试英文自我介绍 (学霸版)》

新浪微博:@Mr Jin 英语

日期: 2020-04-25

** 本文解释权旧金单老师所有,原文参照微博,该文档仅仅是重新排版,无内容改动。看完后请自觉点赞收藏。

上次给大家展示了无学习成绩,无科研,无获奖的"三无同学"的英文自我介绍模板示范。具体内容参考我 2020 年 4 月 9 日发布的头条文章。(补充一条,我在 3 月 17 日的头条文章还发了问答环节中话题类的模板,没看过的同学去看看)

这次给大家展示一个学霸版的自我介绍。

同学背景: 理工科,科研能力突出,获奖多。

注意事项:

- 1. 不要罗列奖项,概括成数字即可。如果有亮点,可选取一两处来提。
- 2. 尽量不要提专业术语,这样只会增加面试老师的听力负担。
- 3. 整体上,要以让老师听懂为目标。只要你能让老师听懂,你就比大部分同学强了~

该同学的原始版就不发上来了,上面的几点问题都存在,我做了一半的改动,大家引以为戒。

这里直接给出 MrJin 修改版。

(MrJin 修改) 中文版

亲爱的教授们,很荣幸有机会来介绍我自己。我的名字叫...,今年23岁,我来自(邯郸),一个(河北省)的城市。2020年,我将从***大学毕业,专业是***。

嗯,事实上,从我第一天进入大学,我就发现自己对科研非常地感兴趣。所以,你们也许能想到,我在科研上下了很大的一番功夫。到目前为止,我发表了两篇 SCI 论文,其中一篇发表在项级期刊上,影响因子超过 7。同时,我也参加了很多竞赛。我得说我还是非常幸运的,因为在此过程中,我不仅收获了经验,也拿到了很多奖项。其中包括 7 个国家级奖项,还有 10 几个其他级别的奖项。

除了竞赛,我还有一项专利,正在审查状态。

虽然在大学这几年我取得了一些成绩,但是我知道这是远远不够的。所以,我来到这里。在 我眼中,(报考院校)有最好的教授和最好的科研环境。另外,从我自己的角度来说,我非 常喜欢(报考的专业)。 我认为它是改变世界的一项重要技术。如果可能的话,我希望有机会在此学习,并且我已经做好准备,为这个领域贡献自己的一份力量。

以上就是我的个人介绍,感谢教授们,谢谢你们的善意和耐心。

(MrJin 修改) 英文版:

Dear professors, it is my honor to have this opportunity to introduce myself. My name is ***, 23 years old, and I come from (Handan), a city of (Hebei) province. In 2020, I will graduate from the **** university, and my major is ****.

Well, actually ever since the first day I came to my college, I just found that I have a very very strong interest in scientific research, and so, as you can imagine, I've done a lot of work on it. So far, I have published two SCI papers. One of them is published on a top journal and the impact factor is more than 7. Meanwhile, I also take part in many competitions. Well, I must say I am a lucky guy, because in this process, I not only gain experience, but also win a lot of awards, including seven national ones and more than 10 at other levels.

Besides competition, I also have a patent under review.

Although I have made some achievement during my school year, I know it is far from enough. So, I come here. In my eyes, (报考院校) has the best professors and the best researching atmosphere. What's more, for personal reason, I am very interested in (报考方向 machine learning). I think it is one of the key technologies to change the world. If possible, I hope I could be accepted to study here and I have been ready to devote my contribution to this field.

So, this is just my self-introduction. Thank you professors, thank you for your kindness and patience.
